

# Electronic Access to Taxon

## 1. 2001-present (through Ingenta)

To register and activate your electronic access to Taxon, please go to **www.ingentaconnect.com** and click on *'register'* and then enter your information in the fields provided.

Choose a username and password (username/password must each be at least 5 characters).

Once you have entered all relevant information, please click on *'register'*. You can then gain access to Taxon by clicking on *'activate personal subscriptions'*, and then clicking on the *'add'* tab.

Search for the publication title (Taxon) and then tick next to the title, then type in your IAPT membership number on the right side and again click *'add'*.

You will then receive an email confirmation message from Ingenta and the IAPT office that your access to Taxon has been received. Activation of access will occur 15-30 min. later (during regular IAPT office hours).

*Taxon issues will be available only for paid years.*

## 2. 1951-2012 (through JSTOR)

Go to the IAPT website: [www.iapt-taxon.org](http://www.iapt-taxon.org)

Go to menu item **Login** and enter your username (surname) and your password (IAPT membership ID). Username is case sensitive. Then click on *'log in'*. Select *'miscellaneous'* and *'Taxon back issues'*.

You will be redirected to the JSTOR website. In the upper menu click on *'Browse'* (and on *'by Subject'*). Under *'Science and Mathematics'* search for *'Botany & Plant Sciences'* and then *'TAXON'*.
